"The results are impressive, not to mention delicious." — The Times

ABOUT THE BRAND

The original steam-free milk frother.

For over two decades, aerolatte has turned everyday milk into café-quality froth.

aerolatte began with a single, simple invention: a hand-held, battery-operated whisk designed to produce perfect, barista-quality milk froth without steam, in twenty seconds or less. The Times called the results “impressive, not to mention delicious” — and it changed the way coffee lovers make cappuccino, caffè latte and hot chocolate at home.

Since then, the range has grown far beyond that original frother to cover the full coffee ritual — from stovetop espresso makers and pour-over filters to matcha whisks, cappuccino art and vacuum-sealed storage. Every product carries the same promise: café-quality results, without the café price tag.

01

Steam-free by design

Whisks any milk — dairy or plant-based — into café-quality froth in 20 seconds, no machine or steam wand required.

02

A full coffee ritual

From stovetop brewing and pour-over filters to matcha and storage, the range covers every step from bean to cup.

03

Made for daily use

Food-approved stainless steel, BPA-free plastics and dishwasher-safe parts, built for everyday reliability.

SOUTH AFRICA

This range is imported and distributed exclusively across South Africa by Classic Houseware, supplying independent retailers and major online platforms nationwide.
