OUR PARTNER BRAND

Inventors of the **non-stick pan**, world No. 1 in cookware

Tefal is a French cookware and small appliance brand, part of Groupe SEB since 1968, and the inventor of the world's first non-stick frying pan in 1956. Today Tefal is the world's No. 1 cookware brand by retail value*, sold in more than 120 countries and engineered around one idea — that cooking should be effortless and consistently brilliant, from a first apartment kitchen to a professional-style range.

Tefal SMARTER TOGETHER | Classic HOUSEWARE

ENGINEERED FOR EVERYDAY COOKING

The technology behind **every pan**

01
Thermo-Signal™ heat indicator

A red spot at the centre of the pan turns full red the instant the ideal starting temperature is reached — taking the guesswork out of preheating and improving searing, colour and flavour.

02
Diffusion Base

Heat is spread evenly across the full width of the base, eliminating hot spots so food cooks consistently from edge to edge.

03
Non-stick coating families

Easy Plus (Access), Mineralia (Natura) and Titanium / Titanium 2X (XL Intense, Primary, Jamie Oliver) — each reinforced for effortless food release and easier cleaning, matched to the range's intended use.

04
Stainless steel families

Uncoated stainless steel (Pressure Cookers, Primary, Jamie Oliver) for restaurant-grade searing, plus Titanium-coated, riveted stainless steel (Primary, Jamie Oliver) — 90% recycled, oven-safe and induction-ready.

05
Thermo-fusion™ induction base

An extra-large stainless steel induction disc, bonded to an extra-thick aluminium base, for fast and even heating on induction hobs.

100%
of Tefal non-stick coatings are independently tested safe

0
PFOA, lead or cadmium in any Tefal non-stick coating

60+
years mastering non-stick coating technology

TEFAL COOKWARE

Super Cook

Everyday non-stick, made simple

Designed for beginners who want delicious results without complication, Super Cook pairs Tefal's long-lasting Titanium non-stick coating with the Thermo-Signal™ heat indicator, so every pan reaches the ideal starting temperature before food goes in. Available as complete 7- and 12-piece sets — everything needed to outfit a first kitchen, in one box.

TEFAL COOKWARE

Access

Reliable non-stick for every kitchen

Tefal's most accessible everyday range: a lightweight aluminium body finished with a durable Easy Plus non-stick coating that resists scratching and keeps food from sticking, meal after meal. A diffusion base spreads heat evenly across frypans, woks, saucepans, a sauté pan and stewpots, while the Thermo-Signal™ indicator takes the guesswork out of preheating.

TEFAL COOKWARE

Natura

Naturally strong, mineral-reinforced non-stick

A naturally strong non-stick surface reinforced with mineral particles, so the true flavour of vegetables and lean proteins comes through with minimal oil. The deep frypan and lidded wok share Tefal's Diffusion Base for even heat and the Thermo-Signal™ indicator for a consistently well-seared result — safe for both health and the environment.

TEFAL COOKWARE

XL Intense

Built for bigger, bolder family cooking

Sized for family-scale cooking, XL Intense wraps a lightweight aluminium body in Tefal's reinforced Titanium 2X non-stick coating — up to twice as resistant to scratching as a standard coating. Frypans, a wok, a grill pan, a pancake pan and lidded stewpots all share the same Diffusion Base and Thermo-Signal™ indicator for dependable results at scale.
