ABOUT THE BRAND

Ingenious. Generous. Inspiring.

For over 70 years, Tefal has turned everyday kitchen and home-care moments into something simple — freeing up time for what matters more than the chores.

Tefal is a French cookware and small-appliance brand owned by Groupe SEB since 1968. Best known for pioneering non-stick frying technology, Tefal has grown into a full home-care ecosystem — from precision steam irons and steam generators to air fryers, kettles, toasters and food steamers — engineered to deliver dependable performance with genuine ease of use.

Every product in this catalogue is built around the same idea: thoughtful design that removes friction from daily routines, backed by real engineering — from anti-calc and anti-drip systems in the ironing range to multi-drawer, energy-saving cooking technology in the kitchen range.

01 **Performance you can trust**

High-output steam, fast heat-up times and durable soleplates and finishes engineered for daily use.

02 **Everyday ease**

Anti-drip, anti-scale, drip-stop and auto-off systems designed to remove hassle from routine tasks.

03 **Built to last**

Many products qualify for Tefal's global repairability network — low-cost parts, fast turnaround, less waste.

SOUTH AFRICA

This range is imported and distributed across South Africa by Classic Houseware, supplying independent retailers alongside major online platforms including Takealot, Amazon, Yuppiechef, @Home, Bash and Makro Online.
